

TG-MACHINES

PROCESS ENGINEERING

Meat, Poultry & Fish Crusher

Sometimes small particles of the processing setups are required. TG-Machines have prepared crusher which can grind meat and poultry by-products within range 15 -25 mm. Smaller particles can reduce the expenses for the heating process.

Good cutting efficiency

Easy replacement of knives

Strong crusher shaft

Cost effective

- ⇒ Tailor made hopper and legs
- ⇒ Double gearbox and motor
- ⇒ Robust construction of knives
- ⇒ Solid seals and bearings
- ⇒ Easy replacement of knives
- ⇒ More effective process

TECHNICAL DATA:

Model	Capacity [ton/hr]	Particle after crusher [mm]	Power [kW]	Weight [kg]	Dimensions [mm]		
					L	W	H
MPFC-16	16	15-25	45	4200	3200	1400	2000

Application:

- ⇒ Low-temperature wet rendering
- ⇒ Meat and poultry by-products
- ⇒ Feather processing
- ⇒ Fish processing
